

NO DRAIN, NO WINTERIZE Executive Roof Hydrant Installation Instructions

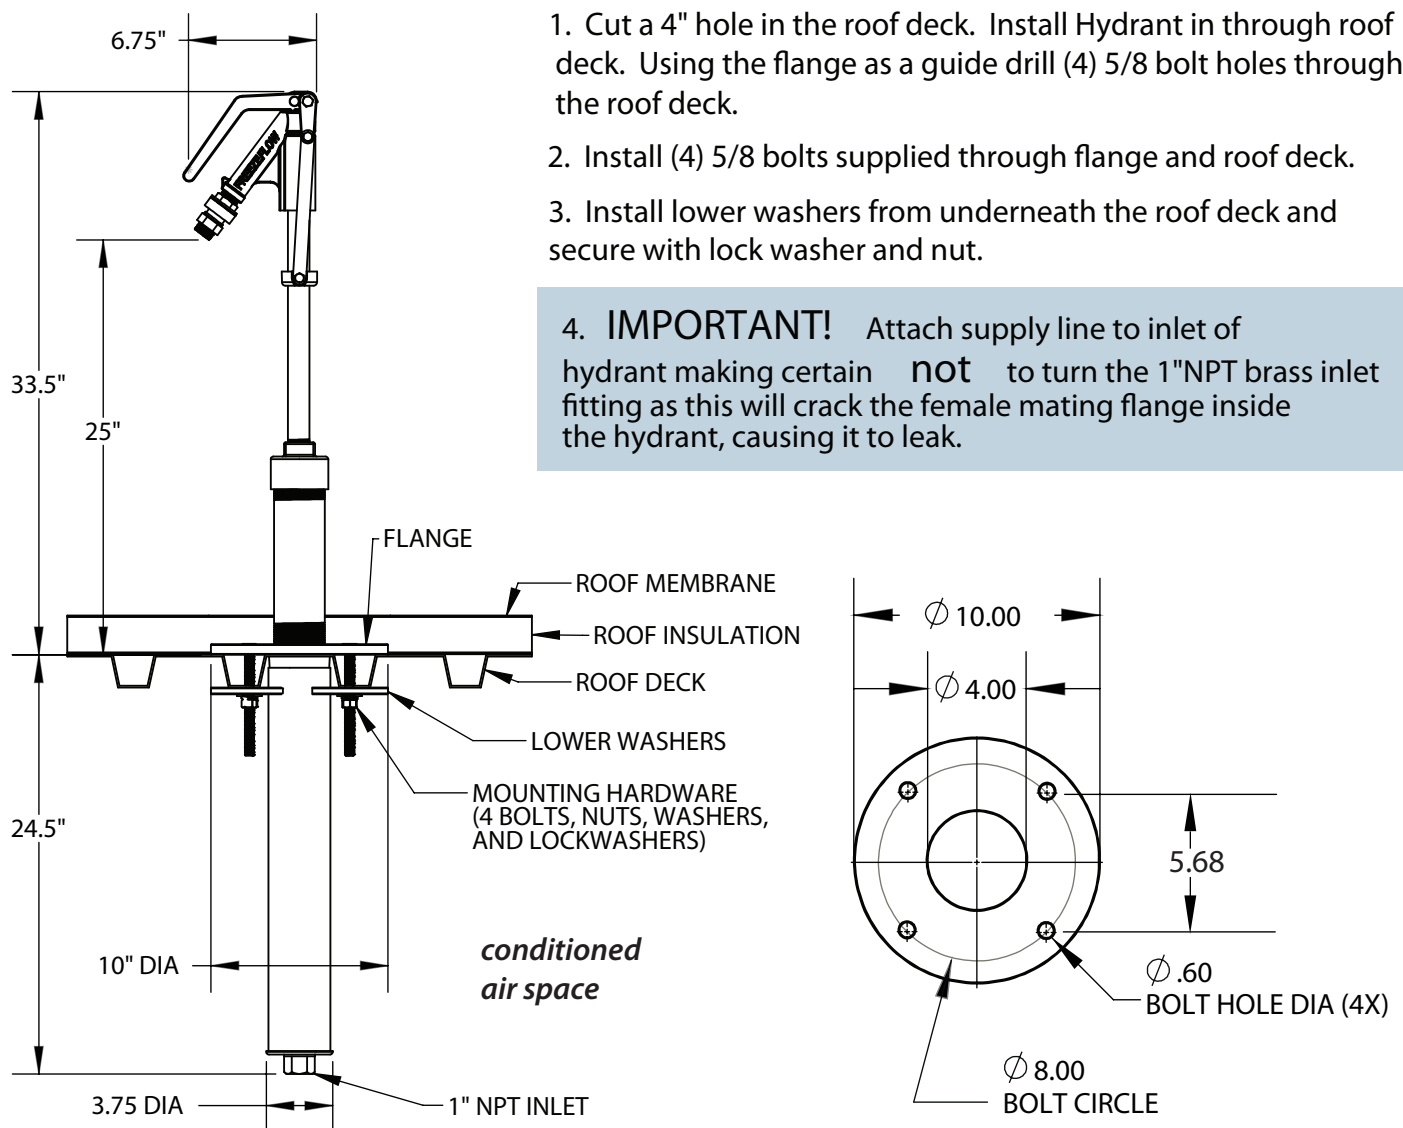

Freezeflow hydrants are designed for heavy-duty commercial use where safe potable water is needed. This hydrant drains into a reservoir below the roof frost line to prevent freeze ups and eliminates the need for a drain line or winterization.

Model# 2131RE

INSTALLATION

1. Cut a 4" hole in the roof deck. Install Hydrant in through roof deck. Using the flange as a guide drill (4) 5/8 bolt holes through the roof deck.
2. Install (4) 5/8 bolts supplied through flange and roof deck.
3. Install lower washers from underneath the roof deck and secure with lock washer and nut.

4. **IMPORTANT!** Attach supply line to inlet of hydrant making certain **not** to turn the 1"NPT brass inlet fitting as this will crack the female mating flange inside the hydrant, causing it to leak.
